What is a Mom2Mom Sale?

Think of a cross between a flea market & a garage sale, and you'll have a Mom2Mom sale. Moms rent tables where they can sell the clothes, toys, and miscellaneous items that their families have outgrown. Moms and the public can shop at these sales and find incredible bargains - strollers, exersaucers, clothes that are slightly used, even clothes that still have the tags on them sometimes! You can find such a variety of items, from videos to video games, from baby bottles to raincoats - just about anything a family could need.
